

## Pilot Clamp®

Locking hole saw guide

- Drill up to 2" diameter hole in pipe up to 4" in diameter
- Cuts cleaner hole with no wobble
- Use to drill/cut holes for mechanical tees, crosses, welded outlets, thread-o-lets, detection devices.
- Increase diameter of an existing hole
- Drill in tight cramped areas
- Drill in vertical or horizontal position
- Cut holes with or without pilot bit
- Ideal for on the job or in the shop fabrication
- No special drill needed
- Use as straight or right angle drill
- Extends life of hole saw
- Cuts faster than conventional methods

Complete with clamp with levels, six hole saw guides, six Lenox® holesaws, two Lenox® arbors, pilot bit, carrying case.
